2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered ~~as~~ a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY**

International application No.

PCT/US04/00284

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

- ☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- ☐ a sequence listing
☐ table(s) related to the sequence listing

b. format of material

- ☐ in written format
☐ in computer readable form

c. time of filing/furnishing

- ☐ contained in international application as filed.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

International application No.
PCT/US04/00284

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

| | | |
|-------------------------------|--------------------|------------|
| Novelty (N) | Claims <u>1-22</u> | <u>YES</u> |
| | Claims <u>NONE</u> | <u>NO</u> |
| Inventive step (IS) | Claims <u>1-22</u> | <u>YES</u> |
| | Claims <u>NONE</u> | <u>NO</u> |
| Industrial applicability (IA) | Claims <u>1-22</u> | <u>YES</u> |
| | Claims <u>NONE</u> | <u>NO</u> |

2. Citations and explanations:

Claims 1-22 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a cross-draft spray booth for aircraft painting and stripping or an aircraft contamination booth therefor. Although the cited references to DeRegge, Baral, Milton, Kohn, Schutic et al.; and Crisp disclose various spray booth and contamination collection apparatus, none of the prior art of record specifically teaches or suggests the apparatus capable of operating on aircraft and having the particular sidewall and endwall segmentations set forth in applicant claims 1, 9 and 15. .

Claims 1-22 meet the criteria set out in PCT Article 33(4), and thus are capable of industrial applicability because the subject matter claimed can be made or used in industry.

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the questions whether the claims are fully supported by the description, are made:

The drawings are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 7 because: the drawings are faint of line and include hand-drawn element numbers and Figure labels.
